To whom it may concern:

I would like to take this opportunity to tell you how pleased we are with your bottleless water coolers.

Having multiple machines in each of my offices, the units are used by both staff members and my patients. Not having to handle or store the heavy bottles is truly a pleasure.

We are very happy with the excellent quality of water produced by your units. Being a medical provider, it is extremely important that my patients have this quality of water available to them.

I have gladly recommended your water coolers to anyone considering having water in there offices, and will continue to do so.

Sincerely,

Dr. Howard L. Sacher
